

# ROPE/WIRE

Collect as much of the suspected rope as possible. Mark ends of material for comparison.

Place rope in paper bag of an appropriate size.

Seal bag with evidence tape.

## Don'ts

- Don't cut or untie knots in the rope.
- Don't kink or twist wire.
- The item may be wrapped in paper to protect against damage.
- Knots in rope should not be loosened or disturbed.
- If cutting a noose for removal, reattach or bind the ends together with string to show the original.
